Korean Journal of Sport Biomechanics

December 31, 2017, Vol. 27 No. 4

CONTENTS

239 **Biomechanical Analysis at the Start of Bobsleigh Run in Preparation for the 2018 Pyeongchang Winter Olympics**
Seungbum Park, Kyungdeuk Lee, Daewoong Kim, Junghyeon Yoo, Jaemin Jung, Kyunghwan Park

247 **Angular Differences between the Lower Extremity and the Ground that Express Maximum Core Muscle Activation According to Core-strengthening Exercises**
Nam Jeong Son, Hyun Jeong Jun, Kyung Ock Yi

257 **Comparison of Skiing Time and Vertical Ground Reaction Force between the Short Turn and Basic Parallel Turn during Alpine Skiing**
Jin-Hae Kim, Joo-Nyeon Kim

263 **Comparative Analysis of Peak Impact Acceleration and Impact Shock Frequency Components According to the Type of Treadmill for Treadmill-running**
Jae Seok Lee, Seung Eun Hur, Seong Han Park, Hwang Woon Moon, Bon Ho Koo

269 **A Study on the Goal Setting Method for Increasing the Holed Probability in Slope Putting Stroke on an Artificial Putting Surface**
Jin Park, Ji Hyeon Kim, Jong Min Jung

279 **Muscle Function Path Analysis through Muscle Activity Analysis of Human Myofascial Meridians**
Young Hyun Park, Aa Reum Hong, Jea Moo So

287 **Evaluation Tools of Shoulder Joint Kinematics - Shape Matching Technique -**
Doo Sup Kim, Han Bin Jin
